Vision & Mission

Our Vision

To provide strategic training and development support for the RAK Free Trade Zone Authority through the means of professional and personal opportunities designed to consistently **Link Learning to Life.**

Our Mission

To create an environment that inspires, empowers and educates our employees, clients and the surrounding community of Ras Al Khaimah in an effort to enhance and support continuous development through focused, individualized and state-of-the-art programs.

“My course was customized to suit my busy schedule.”

Values

Customer-Focus

We value the unique and individual needs of our clients both internal and external and design programs to suit their needs, schedules and various levels.

Integrity

We view integrity as the back bone of any business and function with the belief that an honest and transparent organization is the key to the success of our clients.

Innovation

We, as a unit of the Ras Al Khaimah Free Trade Authority, value new and creative solutions to learning and development in an attempt to keep up with the rapid development and globalization of the emirate.

Quality

As an ISO certified organization, quality is at the forefront of our businesses processes. Continuous improvement is a core value that drives all of our program and service designs.

Team Work

Success is the combination of shared efforts which allows the **INJAZ** staff to develop an array of high quality programs to better serve our clients.

Leadership

Leadership in business and service is integral to passing on knowledge and developmental skills through effective coaching and guidance. At **INJAZ**, all stakeholders are offered the opportunity to become leaders.

History

The **INJAZ training center** is a strategic training unit of the Ras Al Khaimah Free Trade Zone Authority Human Resources Department. Initially founded under the name of the Center for Business Excellence in 2006, the concept was designed with the objective of increasing the business development level of the Ras Al Khaimah Free Trade Zone employees.

It became increasingly evident in 2007 that the need for the high quality training and development options in Ras Al Khaimah was growing as rapidly as the emirate itself.

In response to the demand, the challenges of globalization and changes in business models today, the **INJAZ training center** opened its doors to the public to offer a variety of courses to meet the diverse needs of the RAK Free Zone employees, clients and the community of Ras Al Khaimah.

INJAZ is fast becoming a hub of development in the emirate and is strategically located at the Ras Al Khaimah Free Trade Zone's Business Park.

The center was recently awarded the honor of receiving the Sheikh Saqr Program for Government Excellence Award for **Best Administrative Practices 2007**.
